The

AUSTRALIAN COMPUTER JOURNAL

Volume 6

March, 1974
to
November, 1974

Contents

AUTHOR/S	TITLE	PAGE
A. Y. Montgomery	Algorithm and Performance Evaluation of a New Type of Random Access File Organization	3
I. Fris *and* A. G. Smith	A Student Programming CMI System on an ICL 1904A	12
W. P. Beaumont *and* J. L. C. Macaskill	Computer Exercises on Graph Theory with Automatic Marking and Correction	18
B. J. Austin, P. P. Hanlon *and* J. J. Russell	Job Scheduling in a Monoprogrammed Environment	26
K. Tognetti	On the Graphical Representation of a Queue	30
A. W. Goldsworthy	Privacy in Australia—The Morrison Report	34
C. R. Murry	A Review of Computer Application in the Raw Sugar Manufacture	38
I. D. Macdonald	An Application of Coset Enumeration	46
J. M. Barry	Application of the Finite Element Method to Elliptic Problems	51
T. Pearcey	The Effect of Large Scale Integration and Batch Fabrication on the Architecture of Large Data Systems	61
R. P. Watkins	The Design of Introductory Programming Subjects	71
W. Hanlon *and* G. A. Hamer	Planned Metrication of Computer Systems in a Large Steelworks	78
R. P. Watkins	The Design of Flog, an Automatic Flowchart Generator	98
W. N. Holmes	The Social Implication of the Australian Computer Society	124
A. Y. Montgomery	A Discussion of a Multi-Master Sequentially Organized File Maintenance System	129
E. G. Wormald	Digit-Packing for More Effective Data Transmission	143
Editorial		1
From the President		50
Eighth Report of Council		82
Society Financial Report		88
Book Reviews		45, 123, 128, 140
Forthcoming Conferences		141
The A.N.C.C.A.C. Award 1973		142

Index for the Australian Computer Journal, Vol. 6

1. Index of Titles of Papers, Books Reviewed, etc.

A Discussion of a Multi-Master Sequentially Organised File Maintenance System. 129

A Review of Computer Application in the Raw Sugar Manufacture. 38

A Student Programming CMI System on an ICL 1904A. 12

Algorithm and Performance Evaluation of a New Type of Random Access File Organization. 3

An Application of Coset Enumeration. 46

Application of the Finite Element Method to Elliptic Problems. 51

Computer Exercises on Graph Theory with Automatic Marking and Correction. 18

Computers in Society (Review). 123

Computational Methods in Ordinary Differential Equations (Review). 45

Digit-Packing for More Effective Data Transmission. 143

Digital Computer Concepts (Review). 128

Editorial. 1

Eighth Report of Council. 82

Forthcoming Conferences. 141

From the President—A Question of Ethics. 50

Job Scheduling in a Monoprogrammed Environment. 26

On the Graphical Representation of a Queue. 30

PL/I for Business Applications (Review). 123

Planned Metrication of Computer Systems in a Large Steelworks. 78

Privacy in Australia—The Morrison Report. 34

The A.N.C.C.A.C. Award 1973. 142

The Design of Flog, an Automatic Flowchart Generator. 98

The Design of Introductory Programming Subjects. 71

The Effect of Large Scale Integration and Batch Fabrication on the Architecture of Large Data Systems. 61

The Social Implication of the Australian Computer Society. 124

Society Financial Report. 88

Urpis One—Proceedings of the First Australian Conference on Urban and Regional Planning Information Systems (Review). 140

2. Index to Authors and Other Contributors

Anderson, M. E. 123
Austin, B. J. 26

Barry, J. M. 51
Beaumont, W. P. 18

Ernst, K. 89

Fris, I. 12

Goldsworthy, A. W. 34, 50

Hamer, G. A. 78
Hanlon, P. P. 26
Hanlon, W. 78
Harvis, R. P. 45
Hext, J. B. 123
Holmes, W. N. 124

Juliff, J. 128

Macaskill, J. L. C. 18
Macdonald, I. D. 46
Masters, P. R. 89
Montgomery, A. Y. 3, 129, 140
Murry, C. R. 38

Pearcey, T. 2, 61

Russell, J. J. 26

Smith, A. G. 12

Tognetti, K. 30

Watkins, R. P. 71, 98
Wormald, E. G. 143

3. Computing Reviews Categories Index

1. GENERAL TOPICS AND EDUCATION

1.5 Education. 12, 18, 71

2. COMPUTING MILIEU

2.1 Social Implications. 124
2.2 Professional Aspects. 34

3. APPLICATIONS

3.5 Management Data Processing. 78
3.7 Information Retrieval. 3, 129
3.9 Miscellaneous. 38

4. SOFTWARE

4.3 Supervisory Systems. 26
4.9 Miscellaneous. 98

5. MATHEMATICS OF COMPUTATION

5.1 Numerical Analysis. 51
5.3 Combinatorial and Discrete Mathematics. 30
5.9 Miscellaneous. 46

6. HARDWARE

6.2 Computer Systems. 61
